WORK EXPERIENCE

UX/UI Designer — Wheeliyo Pvt.Ltd

March 2026 – Present (5 months)

- Designed intuitive and user-friendly mobile app interfaces for buying, selling, and auctioning vehicles.
- Created high-fidelity UI designs, wireframes, and interactive prototypes using Figma.
- Designed marketing creatives, onboarding flows, KYC screens, and premium subscription experiences.
- Improved user journeys by simplifying complex workflows and reducing friction.
- Conducted design iterations based on stakeholder feedback and usability considerations.
- Assisted developers during implementation to ensure designs were accurately executed

UX/UI Designer — Medagg Ventures LLP

June 2025 – March 2026

- Designed healthcare web and product experiences focused on clarity, trust, and usability
- Led UX for non-surgical treatment pages and conversion-focused landing pages
- Created UX flows for MedCRM including lead entry, assignment, and caller dashboards
- Collaborated closely with product, marketing, and developers to align UX with business and patient goals

UX/UI Designer — TechieNutpam Pvt. Ltd.

June 2024 – May 2025

- Designed web and mobile interfaces for healthcare, travel, and service-based products
- Conducted user research, usability improvements, and competitor analysis
- Created user flows, wireframes, and high-fidelity UI with developer-ready handoff
- Worked on end-to-end design from requirement understanding to final UI delivery
- Ensured design consistency using design systems, reusable components, and UX best practices

KEY PROJECTS (SELECTED)

MedCRM – Healthcare CRM Platform

- Designed a beginner-friendly CRM for healthcare teams inspired by TeleCRM.
- Created lead entry, smart auto-assignment logic, caller dashboards, and performance metrics.
- Focused on reducing training time and improving daily operational efficiency.

MedAgg Healthcare Website - Live

- Redesigned core website pages with a clean, modern, trust-driven UI.
- Built scalable design templates for multiple treatments (PAE, GAE, Thyroid, Breast, Diabetic Foot).
- Improved readability, conversion flow, and mobile responsiveness.

ConvertScan2Cad

- Designed dashboard screens for a Scan-to-CAD conversion platform, enabling users to upload 3D scans, request quotes, and track project status.
- Focused on simplifying complex technical workflows into a clear, intuitive dashboard experience.

RideVerse – Biker Community Mobile App

- Designed an all-in-one mobile app for bikers focusing on help, connection, navigation, and safety.
- Defined full app flow from splash screen to logout.
- Designed minimal, dark-themed UI with biker-focused branding.

EDUCATION

Advanced UXUI Design

School of Techies, Chennai.

January 2024 – May 2024

Bachelor Of Engineering

Electrical And Electronics Engineering

Hindusthan College Of Engineering And Technology, Coimbatore.

2019 to 2023
